District Eight is a furniture brand established in 2010 in Ho Chi Minh City, Vietnam. The name refers to one of the city's 24 districts, in the heart of which we set up our first factory and office. In this land where culture is lovingly celebrated, constantly redefined and taken to new heights.

DISTRICT EIGHT DESIGNS AND CREATES QUALITY FURNITURE INSPIRED BY VIETNAMESE HERITAGE FOR MODERN-DAY LIVING.

Rooted in the passion to build and ever-improve, we continually strive for techniques and solutions that transform authentic ideas and materials into furniture pieces of distinguished values and character. The skilled teams in our wood, metal and upholstery workshops are committed to the exacting standards. From the drawing desk to production line, we seek to honor the tradition of dedicated craftsmanship in Vietnam through every considered detail, which propels our products from domestic to Asian, European and American markets.

From humble beginnings with a small collection informed by Vietnamese architecture in the 20th century, District Eight now works with international designers to create original furniture that reflects and inspires contemporary living. We are proud to have our products featured in residential and commercial projects that shape and contribute to Vietnam, the land that nurtures and ignites our everyday work.

DISTRICT 2

MADE IN SAIGON, A TROPICAL METROPOLIS OF SINGULAR CHARACTER, VIBRANT AND ECLECTIC. A MEETING PLACE THAT CONTINUALLY LOOKS INWARD AND OUTWARD FOR POSSIBILITIES.

STILT COLLECTION

Its conscious and no-frills design underlines District Eight's distinctive vision to articulate Vietnamese storied craftsmanship from a contemporary perspective - one that is inspired by European ingenuity, and resonates with people all over the world.

With the sofa and armchair, separate back and seat cushions gently slot into a slender wood platform that comes in either leather or fabric Upholstered.

Together they're supported by a sinuous frame, whose seemingly simple structure pays homage to traditional stilt houses found in Northern and Central Vietnam.

That bearing base consists of elegant wood beams and steel bars, laboriously worked on and sturdily unified by recessed joints of discerning precision. Such details also pertain to the collection's table set, providing support for its oak top.

A new interpretation of District Eight's signature forms and materials, the collection eloquently captures the beauty of design and the mood of modern-day living in an ever-changing world.

“ **STILT IS THE RESULT OF A QUEST FOR HARMONY IN CONTRAST.** ”

TOAN NGUYEN

“ THE METAL COMPLETES THE CONSTRUCTION, PLAYING AN ESSENTIAL ROLE IN STABILIZING THE STRUCTURE WHILE LIGHTENING THE SILHOUETTE. AS MUCH AS THE WOOD IS GENEROUS AND ROUND, AS MUCH THE METAL IS ITS EXACT OPPOSITE.

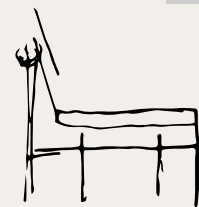

“ The challenge of the STILT collection for District Eight comes first of all from the particular context: to design for an atypical Vietnamese company a collection of furniture that draws its inspiration from the culture of Vietnam, highlighting its tradition of craftsmanship while maintaining an ongoing dialogue with the manufacturing culture of contemporary European furniture.”
