

BOW DINING CHAIR

2041-ALES

DISTRICT EIGHT

BOW intrigues and enchants with a seat that appears to float in space. Its curved, inviting lines create the feeling of an Asian roof tile when many chairs are put together. Highly crafted precision gives the design an air of lightness, with tapered legs and curvilinear stretchers composing its soft, elegant profile. The backrest and seat follow an embracing, upholstered contour that eases the body into relaxation. Finely sculpted solid oak defines the chair's material warmth, and underlines its contemporary sophistication.
